Or other foolish capers, I never get to hear of it-I do not take the paper.

Why, there's my neighbor, Teby Stout, He always reads the news, And having it to talk about,

He never gets the "blues;" While others yawn in ennui, His mind is light as vapor; The cause is plain to half an eye-He always takes the paper.

While neighbor Stout hears all the news, And knows each current price, And always minds the p's and q's,

By taking good advice, I cannot tell the price of grain, Of poultry, coffee, taper, Of any kind of merchandise-

Because I take no paper. Tl ough I have studies that require Much time and mental labor, Yet I can spare a little time,

As well as Stout, my neighbor, Tl ough time is precious, I've the dimes Togget a midnight taper, And thus find time to read the TIMES,

Therefore, I'll take that paper.

Stay at Homo.

We want to say a few words to a numerous body of large farmers and planters North, and South who would be vastly profited by the injunction, should they give heed to it, "stry at home.' Absenteeism is a vice of landed proprietors not confined to Ireland, and may be practiced in its worst form by the farmer or planter who, spending an hour or two daily or once a week among his hands, gives most of his time to political discussion or gossip in corner groceries or under the awning along the streets of the neighboring town. This custom is one of the worst vices of South ern and Southwestern agricultural practice, and until it is remedied, crops will neither be paying nor farming profitable. "Stay at home" and attend, to your own affairs and mind your own workmen, is the grand rule of success in business of all kinds, and the farmer or planter, business man or manufacturer who neglects it, will be sure, sooner or later, to bring upon himself poverty or hankruptcy. -
